EXOTIC LOUVERS

i n s p i r e d b y n a t u r e

A close-up photograph of a window blind or shutter. The louvers are made of a dark wood-grain material with a prominent, swirling pattern and are set within a black metal frame. The lighting is dramatic, highlighting the texture of the wood and the metallic sheen of the frame.

A close-up photograph of cork louvers. The louvers are made of a textured, brown cork material and are separated by dark, possibly black, spacers. The cork surface has a natural, fibrous appearance with some small, light-colored spots. The lighting is dramatic, highlighting the texture of the cork and the sharp edges of the spacers. In the top left corner, there is a stack of similar cork pieces, suggesting a larger quantity of the product.
