TECHNICAL SPECIFICATIONS

- It is recommended to not use any kind of masking tape on the surface to avoid damage. Instead, use nailing pressing method to press sheet on plywood/ MDF.
- Exposure to direct sunlight can prove detrimental. Also avoid contact with any hot cookware directly over the laminate. Consistent exposure to temperatures above 30-35 degrees celsius can cause severe adverse effects to the laminates.

1. Treelam expressly disclaims any representation or warranties of any kind, whether express or implied, as to the accuracy, currency, completeness and/or the merchantability or fitness for a particular purpose of any information contained in or provided via this documentation and/or any service or product described or promoted in this document.
2. It is the customer's responsibility to thoroughly examine the product by a qualified person, to determine whether it is suitable for the application it was purchased for.
3. Treelam laminates are for indoor use only and should not be exposed to direct sunlight in any form.
4. Treelam is a registered trademark.
5. Images and colors should be used as a guide only.
6. Treelam warrants that its products are free from manufacturing defects and they are suitable for use under normal conditions. Product must be inspected prior to installation. "NO GUARANTEE, WARRANTY of the product."
7. Use suitable adhesive for pasting these sheets.

Disclaimer

PU Laminate Products are tested to be reasonably free of defects, and when used and fabricated properly they will comply with the applicable manufacturing specifications within realistic deviations. We recommend customers to inspect products properly before installing. PU Laminate's warranty in no way covers defects and non-compliance from or otherwise attributable to any other causes, including, without limitation of the following:

- Improper handling / transportation / storage of PU Laminate
- Improper installation of PU Laminate
- Improper or unintended usage of PU Laminate
- Lack of or improper maintenance of PU Laminate
- Exposure to high temperatures
- Unauthorized alteration to the products
- Outdoor applications
- There will be no guarantee or exchange under any circumstances
- Color variations in products from different batches are possible
- We recommend using products from same batch to avoid color variations
- This brochure is for presentation purposes only. Actual colors may differ.

To avoid delamination / air bubbles in between ply and laminate the following steps should be taken care of. Bonding of laminate sheets shouldn't be completed under high humidity

- Do not use plywood with high moisture content
- Do not use ply with uneven surface
- Avoid using inferior quality adhesive
- Apply sufficient pressure
