Premium Hardware Fitting

I N S P I R I N G - E X P R E S S I V E - F U N C T I O N A L

The idea to offer high quality furniture, kitchen & bathroom fittings with reliable services kicked in the year 2009, when Starrs Hardware came into being. From there on it has been a progressive climb in the graph when it comes to user reviews, customer satisfaction and of course the sales figures. Our products not only complement the beauty and functionality of your home and workplace essentials, but also add to their life.

**STARRS**<sup>®</sup>

**Ciro telescopic sliding** is the best choice for limited space and heavy doors. It is made up of leaves that slide one in front of the other to lodge itself into a reduced retraction space on the side when it opens. These doors are ideal for small, partitioned area with little space behind the leaves. The doors are equipped with both side soft close mechanism. These profiles are available in **Matt Black** finish.

**INSTALLATION**

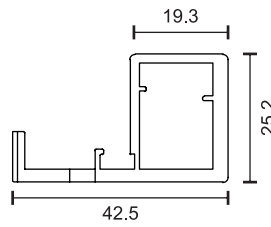

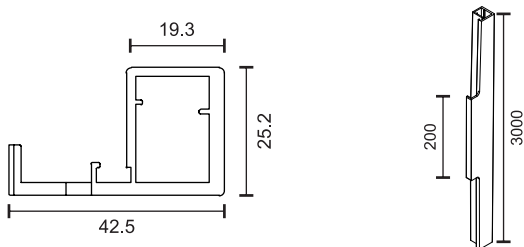

**Slim profile openable wardrobes** designed with aluminium frames with glass allows your wardrobes to be elegant and stylish. The nature, style and state of your wardrobe can impact the whole ambiance of your living room. The right openable wardrobe keeps your room perfect and clean. An openable wardrobe design connected to the wardrobe doors with hinges. One of the advantages of openable wardrobe is the absence of a track as doors are fixed with a door frame. The stylish appearance is another benefit of openable wardrobes.

# HIGH END KITCHEN STORAGE

## High-class Grey

Extremely low-key,  
but everywhere revealed  
the benefits of the high-level sense.

## PURPLE CRYSTAL SERIES & ENCANTO SERIES

### Function

German Technology, super load-bearing Damping, fully pull-out guide rail, simple and brand new linkage structure, pull out the inner baskets while opening the door. Load-bearing point of cabinet door focus on bottom of cabinet, protect the door from deformation.

### Design

Slim sides design, interpreting minimalism and light luxury style, enhance the taste of kitchen storage. The bottom is covered by non-slip mat, prevent the items from collision, and convenient to clean at the same time.

### Quality

Sides of basket is made of superior aviation aluminium alloy, advanced fluorocarbon coating surface treatment technology, strong, rust resistance, abrasive resistance. The linkage structure is made of premium steel, European standard environmental surface treatment technology, running smooth and stable.

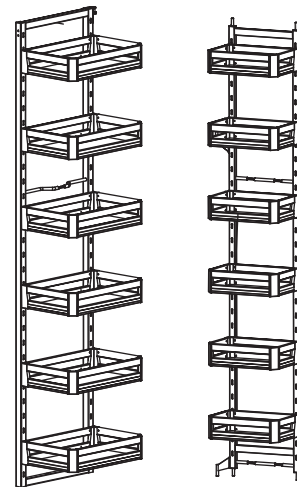

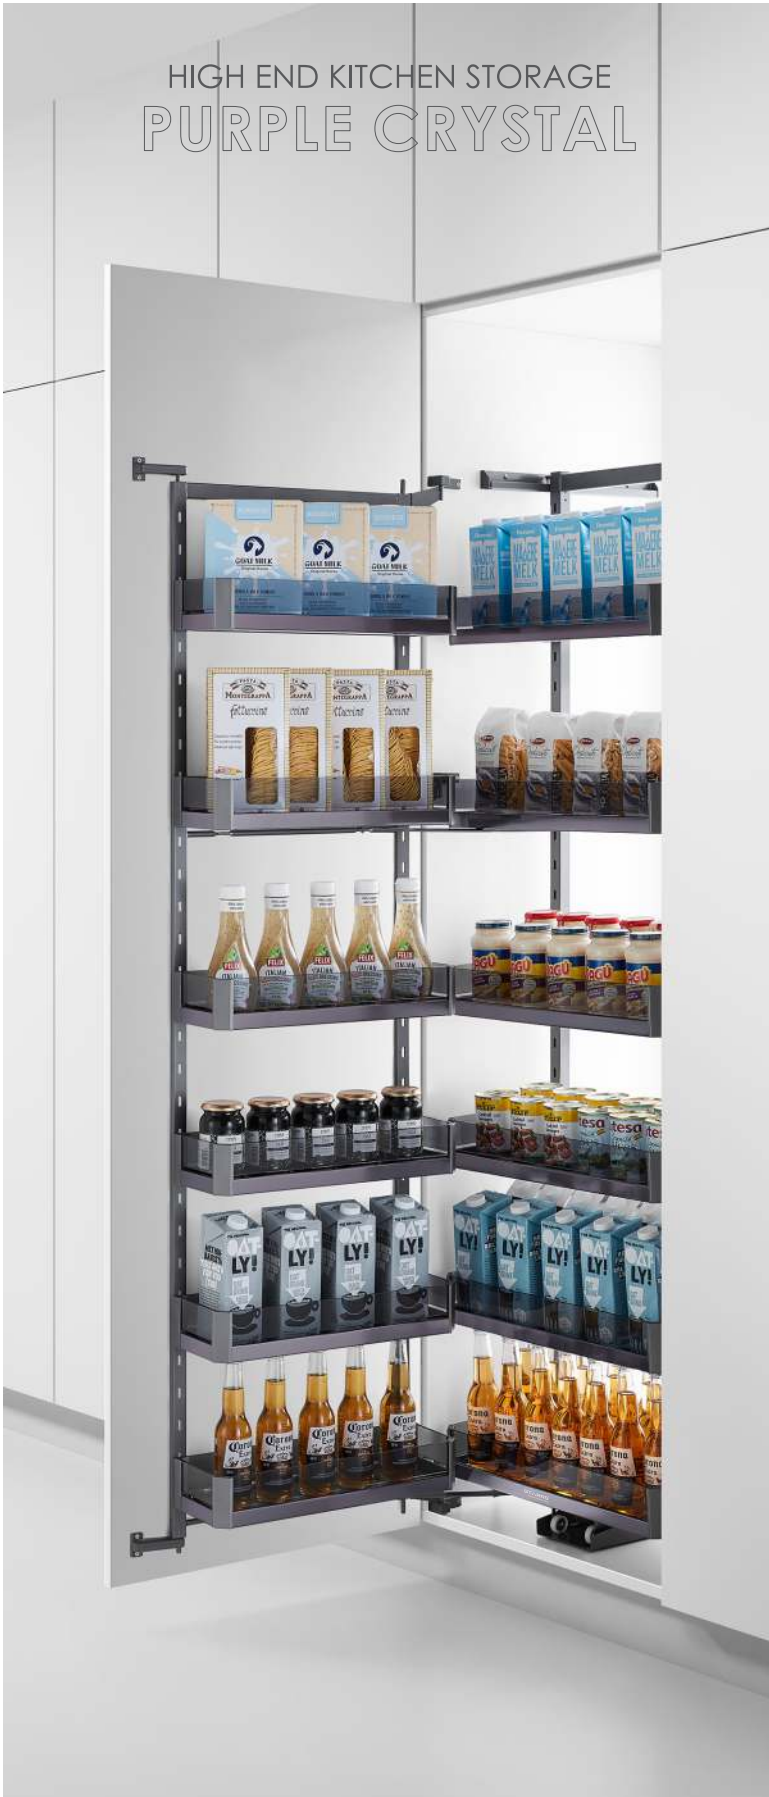

### Storage

It is recommended to store frequently-used kitchen utensils, shakes, dried fruit or condiments, It is suitable to be used with embedded refrigerator in high cabinet combination, not only can convenient to fetch items, but also can reduce the abrupt feeling of single use.

HIGH END KITCHEN STORAGE  
PURPLE CRYSTAL

Basket is made of alloy  
(chromed purple)  
and tempered glass

**Loading Capacity**

Max Loading for each bigger  
Basket 5kg, Max Loading  
for each smaller Basket 3kg.

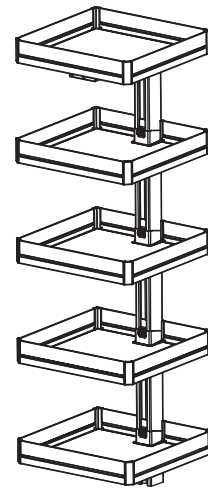

Slim side design, interpreting minimalism  
and light luxury style, enhance the taste  
of kitchen storage. The bottom is covered  
by non-slip mat, prevent the items from  
collision, and convenient to clean at the  
same time.

- It is made of BPA-Free and odourless EVA material which is non-slip, waterproof and flexible.
- This mat is supplied in rolls or can be cut into any shapes or size.
- It is non-adhesive, easy to clean and washable.

## SLIDING FITTINGS

Starrs offers a comprehensive collection of manual sliding door systems for a wide range of applications at home and work. Our large portfolio of door fittings enables users to create tailor-made solutions for virtually any requirement. The solid build quality and premium finishes of these metal fittings add to the overall aesthetic appeal of the place.

Pocket door sliding is an innovative idea to saving space. Instead of opening outwards, the door slides into the pockets on the sides of the unit. Pocket doors create a completely clear opening, allowing for easy movement from room to room. Pocket doors are a good option for smaller rooms that may not have space for a full-swing door. They are perfect for closets and small bedrooms where floor space counts.

A telescopic door system is the best choice for limited space and heavy doors. This eliminates any need for use of the space normally required for swinging doors to open into a room interior. With the telescopic frame installed, two door panels can slide into the same adjoining wall, permitting full opening of the wide doorway and admittance of all exterior light into the room. Doors are equipped with soft close mechanism.
