

THINK SAFETY, THINK GODREJ.

A HOME SAFETY  
AWARENESS  
INITIATIVE BY  
GODREJ LOCKS

# A HOME SAFETY AWARENESS INITIATIVE BY GODREJ LOCKS

Har Ghar Surakshit is a one-of-a-kind, nationwide home safety awareness drive by Godrej Locks. Reaching out to all Indian households, this massive initiative has a singular aim: to create mass awareness of the critical need for robust home safety.

## HAR GHAR SURAKSHIT REPORT 2018

The National Crime Bureau states that there are about 1,20,000 reported home robbery cases in India every year. But in reality when 90% of the cases go unreported, the actual numbers are truly shocking.

\*as per National  
Crime Reports Bureau.

### HOME THEFT / ROBBERY / BURGLARY 2016\*

Despite the facts showing that India has a massive home safety problem, most Indians are still ignorant about the need for superior home safety.

As part of the Har Ghar Surakshit initiative, Godrej Locks undertook a research to understand India's attitude towards home safety. This led to the **Har Ghar Surakshit Report 2018**, the facts from which were alarming.

- **70%** of all thefts in India are home thefts, only **30%** are digital thefts.
- But more than **40%** people are more concerned about digital safety than home safety.
- An alarming **20%** of home-owners have never changed their lock since they moved in.
- **61%** don't want to upgrade to hi-tech safety.
- **64%** people believe they are not prepared for threats to their home.

# GODREJ LOCKS

## 5 STRENGTHS OF SAFETY

To help you strengthen your home's safety, Godrej Locks gives you locking solutions with different safety strengths.

Pick the locking solution that has a safety strength suitable to your home safety needs.

### Safety Strength 1: Basic Security

Conventional mechanical locking systems.

### Safety Strength 2: Ultra Technology

The locks have advanced multi-row pin-cylinder technology and a 100 million combination cycle, which makes each key unique and non-interchangeable with any other key.

### Safety Strength 3: EXS Technology

Advanced, lock technology with maximum number of key combinations of 2 billion.

### Safety Strength 4: EVVA 3KS Technology

The highest safety strength in mechanical locks, comes with EVVA technology, for a 30 trillion combination cycle, making it virtually impossible for someone else to have an identical key as yours.

### Safety Strength 5: Digital Technology

Godrej Electronic Locks are based on virtual networks, which have four different access control systems and have unlimited combinations to ensure enhanced safety.

FOR INDIA**

**3 Years**  
WARRANTY  
from the proven  
date of purchase

### Adjustable Spycode

In the presence of strangers, random numbers can be added before or after the password, thereby maintaining secrecy.

### 360° Fingerprint Recognition

Once registered, the sensor recognises up to 100 fingerprints at any angle.

### PIN Code

The lock can be opened by entering the 4 to 12 digit password; this complex password makes it more secure.

### Privacy Mode

If the privacy button is on, the lock can't be opened from outside by fingerprint or password but only with the mechanical key.

### One Time Password/ Guest PIN

The One Time Password (OTP) / Guest PIN is for one-time use by a guest.

### Emergency Battery (Micro USB)

In case the battery is completely discharged, the external power bank can be used for emergency power supply to operate the lock.

### **THE GODREJ LOCKS UPGRADE**

Upgrade your old lock with the power of superior safety. Just call on our helpline number and book an upgradation appointment. A Godrej Locks technician will then come home and first assess the state of your lock. Depending on your lock, the technician will either replace the old cylinder with a new, improved version of the cylinder or give you suggestions of locks with higher safety strengths to upgrade to.

---

### **SAFETY TIPS**

A strong lock will ensure the safety of your home. But strong safety knowledge will truly ensure the safety and security of your loved ones at home. Here are some tips for you to remember:

#### **BEFRIEND YOUR NEIGHBOURS.**

They could keep an eye on your house, in times of trouble or even when you are out.

#### **SAFETY DOOR FOR SENIOR CITIZEN SAFETY.**

For the benefit of your elderly relatives, add a strong double door to ensure extra safety.

#### **BE CAREFUL ON SOCIAL MEDIA.**

Whenever you go out of town, don't post your location on social media. Don't tell the world that your home is empty.

#### **GIVE YOUR CHILDREN SAFETY WISDOM.**

Teach your kids how to dial all the emergency numbers in case of trouble at home. This will be beneficial when they are on their own.
