## ESSENTIAL RANGE

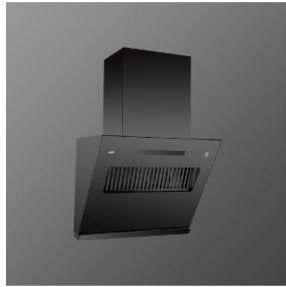

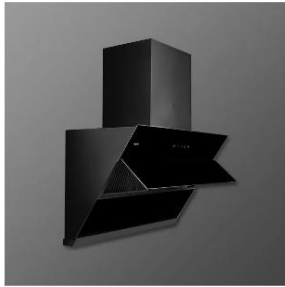

The Essential Range is a collection of a variety of Chimneys with elegant design, high-quality finish, and powerful motor with good suction capacity. Cleaning and maintenance of an essential range of chimneys are also simple. These high-performance kitchen hoods are built to last and equipped with user-friendly air filtration technology. These chimneys are good for people looking for economical options with high performance & maximum features. The wide range of features under the essential range includes soft-touch control, digital display, energy-saving LED lights for aesthetic appeal, baffle filters, aluminium filter, dry heat auto clean technology, and many more. Design features like stainless steel or black tempered glass finish are also available. Auto Clean feature equipped chimneys in this price-oriented range is genuinely a fair deal.

## PREMIER RANGE

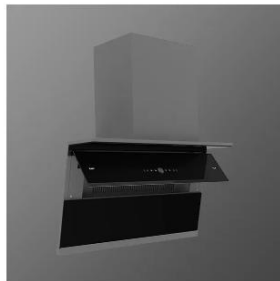

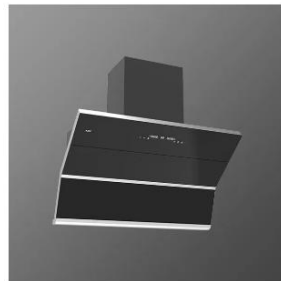

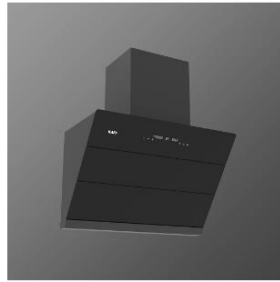

The wide range of chimney for kitchen under the premier range is aesthetically designed for giving premium look to the kitchen at the same time these chimneys are equipped with high performance. These have options like a thermostatic touch panel with 3-speed gesture control, powerful twin concealed motor, clock display, energy-saving frosted LED light. Filterless dry heat auto clean technology is most preferred in this range. Some models in the premier range also have front glass in premium copper and black finish. The premier range of Kaff kitchen chimneys includes cooker hoods that are a perfect balance of design, technology, and workmanship. These Kitchen Chimneys are available in all required sizes and are suitable for different types of cooking requirements. If you do not want the monthly hassle of cleaning the chimney filter, choose Kaff for its amazing range of filterless chimneys.

## COLLECTION RANGE

The Collection Range of KAFF's Kitchen Chimneys features designer cooker hoods to effectively purify the air and ventilate your kitchen while cooking. With excellent design, fine materials, and high performance it will enhance your cooking experience and make it more enjoyable. Kitchen aesthetics are lifted with a variety of chimneys under the collection range. With filter less, dry heat auto clean technology these are very fine and high-end chimneys. The unique design with black tempered glass enhances the look of the kitchen area. An automatic glass opening vent system in some models enhances the beauty further. Stainless steel oil collector, double ball bearing system, dual vent suction, and high performing motor make these chimneys' the best in their category.

## ISLAND RANGE

KAFF offers a wide variety of designs in kitchen chimneys including Island style. Island-style kitchen chimney is perfect for the kitchen space with a cooking island. In this set up the platform of cooking and hob is separated from the kitchen walls and located in the middle of the kitchen. Hence this Chimney for the kitchen is mounted far from the wall, in the middle of the kitchen, however, the ducts are kept hidden under a false ceiling which makes it the best kitchen chimney in India for appearances alone. Kaff's Island Range of kitchen chimneys have a powerful airflow for taking out fumes, smoke, odour, heat & grease, and is also enabled with the Auto Clean Technology. The range includes stainless steel finish with round edges with a heavy-duty baffle filter, digital display, and energy-saving LED lights. The beauty of these Island style chimneys is that they are both sides operated. The front panel with black glass adds aesthetic beauty.
