RAUKANTEX Wood Veneer Edgbands Collection

Wood has many varieties: walnut, maple, beech, ash, etc., each corresponding to a particular shade. This range in the natural variety of wood is also available in RAUKANTEX Wood Veneer edgbands.

During production, the veneers are sorted according to growth characteristics and appearance, so that within each batch the master rolls produced are of uniform colour. With its wide variety of wood types and thicknesses, the RAUKANTEX Wood Veneer edgband range can provide a suitable match for every application.

V-TWIN Edgebands Collection

A particular highlight within the V-Twin is the stepped edgeband with a groove. Whilst the upper section of the edgeband is available in typical glass colours, the lower section features aluminium. When combined with a surface of the same shade, this gives an appearance of a real glass-like top surface.

 Easy combination and 2 different finishes possible
